

How could one priest covering four churches operate a cycle of masses when he can only say three masses on a Sunday including a vigil mass?

FOUR WEEKLY CYCLES OF MASSES

Select the weekend mass times for each church

Suggestions- there are many alternatives but taking into account travelling distances between parishes.

Saturday Evening 5pm

Sunday Morning 9am

Sunday Morning 11 am

X represents no mass on that day at that church so its parishioners could attend mass in one of the other three churches over that weekend. If problems go on line or a Eucharistic Service could be held with permission.

The priest could decide where masses would be said during the week.
Holydays would be on a rota using one or two churches
